# MiSSG Updating Students Rosters

# Student Rosters

Why is it important?

**Your listed student rosters are not just for the sake of you being able to check the statuses of your students.**

- Determines your FAFSA Completion percentage
- Ensures you can see all students even with ever-changing enrollment
- Aligns with automatic data updates if students records have key data metrics

# MiSSG

Why is it important?

**MiSSG allows high school counselors to view:**

- Student Records
- FAFSA completion DATA
- SAY Scores
- TIP Eligibility

# MiSSG

How to gain access:

- **Data Usage Agreement**

# Student Roster

## Individual Updates

Once you access your FAFSA Completion Roster, you will select students you would like **to remove by clicking the box under the select student column.**

Next, **select the remove selected students from roster button.** They will want to be sure that they have selected the correct **HS Graduation Year.**

Also, **to add students, they would select the “Look Up Student” feature.** To search for students, the counselor will need the students DOB and SSN or CEPI ID. **CEPI ID’s are located on students transcripts.**

## Individual Updates

Academic Year 2020 - 2021

HS Graduation Year: 2020

If a student is not listed on this interface, MISSG does not have a FAFSA, TIP record, or SAT score containing your high school code. Students listed multiple times do not have a Social Security number associated with all of their records.

## Information Update

The counselor will also need to be sure to **add a grad date** to the students record when adding them to their roster or they will not show up. **A students record must have a grad date.**

The SSN in MISSG does not correlate to the FSAID.

It means there is not SSN on file for the student. This being blank also runs the risk of creating duplicate student records. Adding SSN's to SAT records will eliminate any duplicate records

# Student Roster

## Creating Systems

- Create a system amongst your team of how and when you will update your student rosters
  - Enrollment changes: new enrollment/transfers
  - Daily/Weekly/Biweekly
  - Responsible for the updates
  - Responsible for pulling FAFSA/State Aid status
  - Responsible for supporting students with creating MISSG portals
  - Responsible for ensuring students update their selected school

# FAFSA Event Efforts

# FAFSA Nights

- Informational about financial aid, applications and the process
- Hosted after schools hours, evenings, or on weekends to capture the parents that work throughout the day.
- Financial aid professional to conduct training and to answer special case questions
- Can be themed to bring excitement and interest.
- Sometimes tied to other events/meetings

# Open “Office” Hours

- Creating the space and consistency for families to drop in to be supported with FAFSA completion (in-person/virtually)
- Consistent time period offered through an extended period of time or indefinitely
- Can be combined with other efforts such as application completion
- Use the time as an opportunity to get multiple things completed for the student in the allotted time.
- Ask parent/student what they would like more information about for future support

# Virtual Support for App Completion

## Connecting with Students

- **Classrooms:** Find classes where students are not just English classes or recommended classes based on this non-virtual world
- **Social media/incentive campaigns:** Money typically used for events use it for incentives and marketing campaigns
- **Students in Contact:** Make sure their items are completed
- **Create Space for Getting things Done**

# Student Ambassadors/Leaders

- **Student grouping:** Athletics, Academics, Extracurricular Activities, Social Engagement, Counselor Engagement
- Within groups put a small group of students “in charge” and appoint adult support for group.
- **Run Small competitions and incentives for groups and leaders**
- Allow these leaders to run social media, events, and activities to get their peers engaged

# FAFSA Event Support Tips

- Consistency will be key. One off events, offered last minute will not be the most effective esp. in this virtual world.
- Use what's important to them to draw them and use these spaces as an opportunity to get things done
- Apps not completed must be completed within 30 days of the initial start
- Be creative, utilize students, mobile app completion, breakout rooms for one-on-one
- Schedule students and families in groups instead of waiting for them to make the appointment (split by alphabet)
- Do not incentivize one off efforts. Combine efforts e.g. FAFSA, TIP and Promise requirement completion
